THEMPRONS No. 12.

-Honorong, December 19rn, 1889.

THE December number of the Chinese R. corder contains a translation of a paper by Wu KUANG-P'BI, lately attached to the Chinese Legation at Washington, on the subject of the exclusion of Chinese from America. The whole paper, as a very fair statement of the Chinese side of the question, will well repay perman; but the point of most im portance in it is the distinct declaration that emigration is a necessity for Ohios, and that the Imperial Government is bound, directly or indirectly, to foster and protect it. " Let us remember," says the Secretary, " tha not only the dignity of our country is at stake, but the lives of hundreds of thousands of Chinese. The purse of public and private charity has, had to be opened again and again for our poor agricultural population, suffering from repeated natural calamities. If their number is now to be suddenly swelled by the expulsion from foreign countries of those who have gone there to endeavour to pick up a living what will the state of China be?" The same soutiment is expressed in the Essay on the Restoration of Chinese Commerce lately reviewed by the N. C. Daily News, where the protection of Chinese labourers abroad is insisted upon as one of the best means of protecting trade, The author's argument is to the effect that port. the Chinese settlers in the Straits, Australia, and elsewhere-consume a vast quantity ("some million thels' worth," he says) of inst., gentlemen prepared to play are requested foodstuffs and utensils manufactured in Chins, the export duty on which swells the revenue at all the open ports from Shanghai to Canton ; that large sums are annually remitted to China, and that whenever any who pleaded that he was not ready with his case, of the natural calamities of which Wv Kuang-r'm speaks has fallen upon their native country these settlers have responded liberally to any appeal for help. He maintains, then, that the Chinese representatives in the various states concerned should be instructed to protest," in language neither arrogant nor humble," against the attempted evolusion of Chinese labourers from those parts. An earlier writer in the same series went even further and urged that the new armoured fleet of China should be sent to subjects.

Imperial Instruction, has, we learn from the It is very inconvenient to levy anything of this rate be a means of defending it. But the Shih-pao, submitted a proposal to His Majesty kind at a broken period of the year. I think Chinese in America, except in so far as they that concessions should be granted to Chinese unless there are strong reasons to the contrary lakes of the interior, with the view of facilitating before the 1st January, otherwise I did not contemplate having another meeting before the navigation in native craft. According to the New Year. Practically it is a matter the Council has already agreed to, and so, perhaps, unless mulgated through the different provinces, there is any objection, we might suspend the The standing orders were then suspended.

The ACTING COLORIAL SECRETARY:-I beg sufficient capital is forthcoming, the Provincial to move the second reading of this Bill. I may Authorities should subsidise such native com. perhaps explain to my hon. friend (Hon. A. The Colony has spent very large sums is preparing for the work and in the acquisition of a tug for service at the Rock. and of course the expaditure has been going on all the year and will continue till the light is

His Excellency-I think, as a matter of fact the Colonial Secretary has misunderstood Mr. MacEwon. What Mr. MacEwen directed attention to was whether the tax would be levied Hon. A. P. MACEWER-Quite so, sir-

His Excellency-The hon, member's question referred not to the beginning of the work but to the end of it. Hon. A. P. MACEWEN-Yes, Sir, that the increased tax, being levied to pay for the lighthouse, as soon as it is paid for whether the tax

would be withdrawn. The Bill was then read a second time and the Council went into Committee. Hon. P. RYRIE-I hope that what Mr. Mac-Ewen has stated and what your Excellency has agreed to will be noted down. It is very important, because I recollect that when the first lighthouse was proposed it was understood that when the lighthouse was paid for the light dues would be considerably reduced or withdrawn altogether. With regard to that many people here feel that the light dues were never intended to form a source of revenue

but should have been withdrawn as soon as the lighthouses were paid for. And I think it should be particularly noted down that there is a distinct agreement that when this lighthousa is paid for there will not be any more levies of light dues for it as there are in the other cases. The ACTING COLONIAL SECRETARY-Have all the others been paid for ?

Hon. P. Ryrie-The old ones have, long ago The ACTING COLONIAL SECRETARY-I am not prepared at this moment to say they are not. Hon. P. RYBIE-If you look into it you will find that they have been paid for. His Excellence Of course all this will b

recorded, but I think it is just as well that it thing. All I can say is that I have not the slightest intention to apply the rate to any The following appears in the Shih-pao :- "On other purpose and if the necessity arises for witness the mangures. sauction of the Legislative Council. Hon, A. P. MACEWEN-While on the subject of lights might I mention the D'Agiular light. It has been for a good many years under consideration whether that was a good light for ships coming from the north and there was considerable discussion some years ago with reference to a light on the island of Waglan. I am not aware whether anything has been done with reference to that. I have mentioned previously that the Colony was indebted to your Excellency for the able manner in which you conducted matters relating to the Gap Rock Light and I think perhaps your Excellency might do the

same in regard to Waglan.

Has Excellency-I may answer the hou. member at once, that I was given to understand last year that in consequence of our having undertaken the work on the Gap Rock the Imperial Maritime Customs would undertake that on Waglan. In fact I went out on a Chinese vessel to inspect the site with the immediate object of having the light placed there. Whether any further steps have been taken I do not know, but I have the strongest impression that it was contemplated to commence at once. I have not heard of anything to the contrary, but I must say that I have not heard of their having started. So far as I am aware there is a full determination to go to work with that lighthouse. The Acting Colonial Secretary—I should point out that this light will be a very expensive one to keep up. There must be a steemer and other expenses and though his Excellency has given his pledge that this money shall not be used for any other purpose, it must be borne in mind that there is an extra expense in keeping up this light as compared with those on shore. Hon, P. RYRIE-Will not the Chinese Go-

vernment pay that? The ACTING COLONIAL SECRETARY-No. Hon. A.P. MACEWEN-I would point out that there is already a very considerable balance from the profit on light dues.

HIS EXCELLENCY-This is a case in which we have to deal with the future. Suppose levy a cent instead of a cent and a half it wil take four years to pay for it, I suppose. A present no one can tell us with accuracy what it will cost. There is a heavy charge, for instance for insuring the steamer Fame, I understand. The SURVEYOR GENERAL-Yes, 10 per cent

HIS EXCELLENCY-In various ways it will come to cost more than we expected. I do not think one cent per ton will pay for the actual cost of construction in less than four years. Hon. P. RYEIE-I think Mr. Luster says that he old light houses have not been paid for. The ACTING COLONIAL SECRETARY-No. simply asked the question.

Hon. P. Ryrie-You said " Have they been

every one in this Colony that they have. I remember when the fund set apart for this was established. I proposed half a cent, but my solleague at that time, Mr. Whitall said, "No, let us have a cent and finish the matter as quickly as possible." In every enlightened country, in America for instance, house situated on Chinese territory, as the Gap lighted coasts than those of the United States I have never seen. Many gentlemen in this Colony interested in shipping feel strongly on this matter. You may say "It is only a cent per may commence to levy a rate at the beginning ton," but to persons interested in numbers of ships it is a very heavy charge.

HIS EXCELENCY-The hon member has spoken with some warmth, but I would remind I do not think it necessary to levy that. I bim this matter was not raised in my time and my attention has never been directed to it at all. cent per ton instead of the cent and a In fact it is entirely new to me that the tonnege balf which the Council authorised me to dues do more than pay for the cost of the lights. levy. If it should prove that this is not suffi. I am only sorry that this matter should come cient, it can be easily increased, but I think a up at this time of year. It (would have been cent will be found to be sufficient. That of better if it had been brought to my notice becourse will oblige the rate to be levied for a fore the estimates were passed. At all events larger number of years. I should rather, how. for this year we have spent three or four times ever, leave this matter in the hands of members. as much as we got from light dues. Hon. P. Ryrie-I was referring to the case

more than was first imagined, and that might be of the old lights? a reason for levying the whole amount, but still The Bill was then read a third time and passed as we are comparatively prosperous I think one . The Council then adjourned.

ENGLISH AND CHINESE DICTIONARY. WITH THE PUNTI AND MANDARIN PRONUNCIATION.

An Angle-Chinese Dictionary, published at the Daily Press Office, Hongkong. For comprehensiveness and practical service this Work stands unrivalled. All the new words which the Chinese have of late years been compelled to coin to express the numerous objects in machinery, photography, telegraphy, and in science generally, which the rapid advance of foreign relations has imposed upon them, are here given in extenso. Each and every word is. fully illustrated and explained, forming exercises for students of a most instructive nature. Both the Court and Punti pronunciations are given the accents being carefully marked on the best "ISABEL,"
